

## Five Step Action Plan

01

Identify  
your  
information  
assets

02

Determine  
the 'value'  
of this  
information

03

Identify any  
**risks** to this  
information

04

Apply  
security  
measures to  
protect the  
information

05

Manage  
risks across  
the  
information  
lifecycle
